

# Test: Find out your level of knowledge in PHP basics

Hello! I'm offering you to check your knowledge in PHP basics! What is PHP, what it is used for and so forth. This test is not aimed at knowledge of PHP language.

You need to answer just 7 questions. I'm looking forward to your comments. After passing the test you will be able to see your gaps. If there are none, great! And if there are, you can immediately fill them!

If you have passed the test, you have already achieved results. Why? Because in a way you gained knowledge and solidified it. Well, to pass the test one hundred percent, read the article.

If your result is not brilliant, don't give up, read the article, find correct answers and then pass the test again. I'm sure you will be able to improve the result!

Best regards!
